

THE FPS VIBRATORY CONVEYOR

SHAKE IT UP!

Sanitary Conveying

FPS vibratory conveyors gently convey product along an easy-to-clean, solid stainless steel surface that can't snag or break like belted conveyors. Our equipment is ruggedly built with solid plate frames and cast stainless steel arm mounts to provide years of reliable service.

Custom testing and design ensure your company's unique product handling needs are accomplished before the conveyor is built.

- Aligning
- Spreading
- Converging
- Sifting
- Scalping
- Sugaring
- Grading
- Breeding
- Dusting
- Dewatering
- Drying
- Spicing

Our engineers consult with you and test your product's unique vibratory movements in our research lab. You'll see video of the tests and discuss options before we begin your custom design. **Call today.**

FPS Tumble Breaders

Standard Model

- Flips and tumbles product over a series of steps. Replaces a drum breader. Great for predest and homestyle finish.

Aligning Model

- Additional, gentle shaker straightens and lanes product for further processing.

FPS Universal Breader

Combines the features of the Compact and Tumble Breaders in one machine.

FPS Conical Breader

A cone-shaped mixing drum allows product intake and outfeed to occur at line height, eliminating elevation conveyors.

Vibratory Conveyors

Standard

40 x 44 inch Spreading Shaker

40 x 60 inch Spreading/Aligning Shaker

Custom Vibratory Conveyors designed for your plant's unique needs.
